

Special Presentation

Annual Report

Board members present the state of the school district at the end of the 2012-2013 school year. Jane Goodwin, board chair, presents Security; Shirley Brown discusses the referendum; Carol Todd presents student achievement updates; Caroline Zucker presents budget issues; and Frank Kovach presents Construction.

NEW PROGRAMMING

Each month the staff of The Education Channel produces three on-going series. IN OUR CLASSROOMS has been in production since 2001; GAME ON PROFILES tells the stories of our academically outstanding athletes; and our newest series, FINE ARTS IN FOCUS, takes viewers around the county to various performances and arts presentations in our schools.

PINE VIEW ROBOTICS CAMP

At the Pine View Summer Robotics Camp, middle school students worked in small teams to design, build, program and pilot Lego Mindstorm robots. To create their robot, the campers built a base and frame, designed armatures, engineered wiring and sensors and finally programmed the robot.

Pine View Robotics Summer Camp

PALS EVENT

Sarasota County Schools PALS (Partnerships and Alliances Linking Schools) coordinates volunteer and business partnership activities within the school district. This half-hour special showcases the Senior, Adult and Youth Volunteers for Sarasota County Schools who were announced in the spring of 2013. Narrated by PALS Program Specialist, Tanice Knopp, the program highlights the benefits of volunteering in our public schools.

PALS Volunteers Annual Celebration

DVP STUDENT SHOWCASE

DVP @ SCTI is an hour program showcasing student works from the Digital Video Production students from Suncoast Polytechnical HS/SCTI. Students worked during the school year on short and long films, Public Services Announcements (PSA's), script writing, preproduction planning, camera and audio work, etc. designed to prepare students for the exciting fields of digital production.

Digital Video Production Students end of year showcase

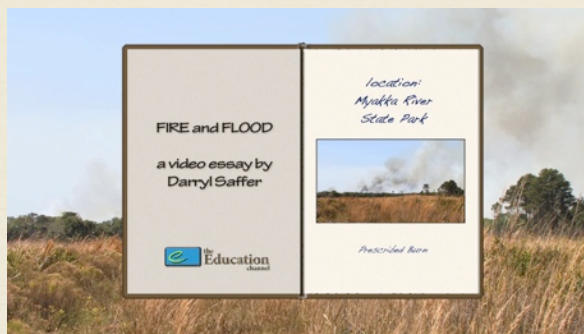

Now you can watch us any time anywhere with YouTube. As more and more people gravitate to the web, so do their viewing habits-most are now accustomed to, and prefer, to watch video on their computer. This is our “on demand” programming - watch when you want to watch, including the Superintendent’s messages and shorts produced by our student interns that you may miss on regular TV. So if you can’t catch us during the day, you can watch anything any other time!
