June, 2014

Dear Parents,

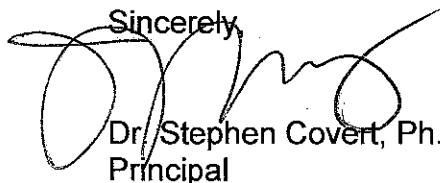

This summer our students in grades 2 through 12 will once again participate in our school-wide Summer Curriculum Program which includes English/Language Arts/Social Studies and World Language. The reading program is part of Pine View's continuing effort to strengthen our students' reading comprehension and critical analysis skills and again includes a reading assignment for Language Arts/English as well Social Studies. On the reverse side of this letter is a list of applicable classes with summer curriculum work. All of the summer work can be found on the Pine View website at www.pineviewschool.com. If your class/grade is not listed then summer work will not be required.

A student will read only the required books for English/Language Arts and Social Studies and will use any guided reading sheets as aids to understanding. Students are required to read only these selections, but are certainly encouraged to read works from the list of suggested reading (if applicable). This list may also be found on the Pine View website. If you do not care to purchase the book from area bookstores, copies are available at no charge from the public library.

When students return to school, study of the required books, which they have read over the summer, will be the first lessons of the year in their respective Language Arts/English and Social Studies classes. Teachers will hold students accountable for having read the required book, but students will be adequately prepared for the assessment if they have read the books and have consulted the study guide. Of course, teachers will answer any questions students may have before any assessments occur. Please refer to the World Language classes for assignment due dates.

We appreciate your continued support of our Summer Curriculum Program. If you have any questions, please feel free to contact Mrs. Nzeza.

Sincerely,

Dr. Stephen Covert, Ph.D.
Principal
